

YOUR GRASS WILL BE GREENER...

Core Greens™ is a meticulously curated combination of 5 superfood and phytonutrient complexes that provide comprehensive support for the most vibrant version of you. This formula contains multiple servings of a rainbow assortment of vegetables with active phytonutrient compounds.

Fresh fruits and vegetables should be a core component of your daily diet. For many people, though, it's hard to prepare and eat an adequate assortment and amount each and every single day. Unfortunately, though, skipping those servings means you don't get the nutritional benefits these foods offer. It means you lose out on optimal bodily function and vitality. Think bloating, indigestion, lack of energy and weakened immunity.

What can you do? Consider the Core Greens™ combination. Not just any other green supplement. This is the Core Green™ supplement you've been waiting for.

THE CORE DIFFERENCE

Core Greens™ from Advanced Nutrition by Zahler contains a blend of powerful superfoods, fruit and vegetable powders, antioxidants and prebiotics to give you a powerfully healthy boost. What's more, these ingredients are all present in bioactive forms. This means that as soon as they enter your body, these beneficial nutrients are ready to be absorbed. Each component included has extensive research backing its benefits. Furthermore, the ingredients in Core Greens™ are available in amounts that have been proven to be effective.

Start with Spectra®. Spectra® is a blend of 29 fruit, vegetable and botanical extracts. It has been clinically validated as a full spectrum antioxidant. It can help you make better use of oxygen, support delivery of nutrients to your cells and improve blood flow.

Follow that with Fulvic Acid. Fulvic acid has documented detoxification effects and can help eliminate toxins and heavy metals from your body. It supports your digestive health, healthy inflammation management, and a better gut barrier to prevent absorption of toxins. It can also help boost your energy levels and improve mood and sleep. Core Greens™ contains the full clinical dose.

On to Inavea™. Inavea™ is sourced from acacia gum and provides prebiotic support. It helps support a healthy gut microbiome. This can help you digest food more easily, reduce bloating, make you more comfortable and help with healthy detoxification.

Whether you're looking to have more energy, boost your immune system, support your digestion or cleanse in a healthy way, Core Greens™ is an excellent choice for supplemental support.

Core Greens™ is available in a capsule and powder format. The capsules are easy to swallow, and the powder has a delicious spearmint flavor.

Moringa leaf is an organic whole leaf powder, nutrient dense, containing potassium, vitamin C, iron and other antioxidants.

Chlorella contains protein, vitamin B12 and growth factor to support healthy cellular function and healing.

Spirulina is a superfood full of B vitamins, minerals, carotenoids, and more. It supports a healthy metabolism and can boost immune health and energy.

Alfalfa, another antioxidant, also contains carotenoids and minerals. It can boost your metabolism and help with inflammation. It can also lower the number of free radicals and help you fight them.

Advanced science in each and every bottle

Using only the purest natural ingredients

Manufactured to the highest standards
